I request the privilege of driving a private vehicle to school and, if the request is approved, agree to comply with the following regulations related to student driving: \_\_\_\_\_

1. At the time the vehicle is registered (signed application submitted), a **red/blue** CV tag identifying the vehicle will be given and asked to be displayed above your car registration or on your rear windshield clearly visible.
2. The lined Parking Lot area between the high school building and the fitness center building is reserved for faculty, and staff. Any unauthorized vehicle parked there will be towed at owner expense. All student-driven vehicles will be parked in the area on the west side of the road leading to the tennis courts and must be parked inside the striped lines. **All students must park between the lines.** Students will not be allowed to move their cars to a different parking spot after school.
3. The vehicle will remain parked during the entire school day unless special permission has been granted for the driver to leave school premises. **Anyone who demonstrates reckless driving (i.e. speeding burn-outs, etc.) will automatically have their privilege suspended permanently.**
4. Student drivers are not allowed to return to their vehicles at any time during the day without obtaining permission from the principal's office.
5. Once buses have begun the exit from the high school at the end of the day, private vehicles must wait until all buses have departed, as they are given exclusive right-of-way on school property. If a student passes a school bus, that individual will be reported to the Chautauqua County Sheriff's Department and ticketed.
6. The school will not be held responsible for any damages incurred while parked on school property.
7. Driving to/from BOCES is allowed only under very limited circumstances. It is a violation of State Education Law for a student to transport or remove another student to or from BOCES. Violations will result in immediate revocation of BOCES and CV driving privilege.

I understand that a violation of any of the above regulations or any others pertaining to safety could result in the suspension of my Driving Privilege.
